Group 3: Sprint 6 Review Report

Aaro Jylhämäki, Juhana Hänninen, Leevi Rinnetmäki, Nea Lukumies

What has been done?

- Planned and designed an acceptance test.
- Analyzed code using SpotBugs, PMD and SonarQube.
- Thorough code clean-up and refactoring based on the analysis.
- Documented project architecture using UML models and ER diagrams.
- Ensured UTF-8 encoding for database
- Sprint 7 plan done in Trello

What is in progress:

- Sprint 6 review report.
- Improving database translations.
- Improving frontends maintainability score on SonarQube.
- Sprint 7 requirements.

Obstacles we faced.

- No obstacles
