Group 3 - Sprint 3 Review report

(Juhana Hänninen, Nea Lukumies, Aaro Jylhämäki & Leevi Rinnetmäki)

What has been accomplished in this Sprint:

- FXML pages created for 90% of Figma pages
- Figma style theme implemented to UI
- Frontend support for: Create course, add assignment, log in and register.
- Backend services connected to Frontend UI.
- Main controller and sub controllers for each page.
- Authentication dynamically changes appropriate page content.
- Authentication implemented for frontend and backend.
- Header created for main layout.
- Split repository to frontend and backend.
- Optimized codebase.
- Security testing to reveal vulnerabilities.
- Jenkins integration.

What will move to Sprint 4:

- Finalizing the graphical UI.
- Study planning interface.
- Schedule calendar.
- Docker integration.
- Further performance testing.
